

Tecnare TS 121

Description:

TS121 is a two way trapezoidal loudspeaker enclosure designed to be used where small size and high output performance are required. It's a single amp system, housed with a high power 12" and a 1" compression driver, loaded into a 90°x40° exponential horn. The 3" voice coil woofer is tuned using CAD techniques. This full range passive system is better used for short throw applications, as the 12" is direct radiating. The TS121 is made of birch plywood and painted in texture black finish. Flying hardware is included as standard as well as a recessed floor stand socket.

Applications:

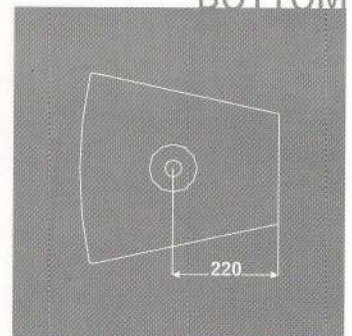

The TS121 can easily suit a wide variety of audio applications.

- 1) Small mobile audio
- 2) Disco or live music installation
- 3) Theater installation
- 4) Sports arenas
